

100th day of school
Delmar, Maryland

In Salisbury our 100th day of school will be February 14th.
List 100 ways you can say 'I love you' to your dear ones...

Students at our school are doing activities for "100th day."
Here are some ideas for our Math keypals to try:

1. What can you do in 100 seconds? Time yourself and let us know. e.g. How many times can you jump rope in 100 seconds?
2. What 100 objects could you fit in a 5 oz. cup?
100 beans? peanuts?
3. How tall is a stack of 100 pennies? 100 nickles?
The coin of your choice?
4. Make number sentences that equal 100.
e.g.
 $5 \times 20 = 100$ $(3 \times 33) + 1 = 100$ $(300/6) \times 2 = 100$
5. Where would a 100 step walk take you from your house?
From your classroom?
From your bedroom?
6. Find some people whose ages total exactly 100. e.g.

Mom is 32
Dad is 35
sister is 9
brother is 3
friend is 11
cousin is 10

total 100

7. Toss a coin 100 times and graph the results... head and tails.
8. List what \$100 will buy. Get as close to \$100 as you can. Include the tax if there is any.
9. Create word problems where the answer is 100. e.g.

Johnathan and Natalie walk 7 blocks to school every day

and 7 blocks back home. They go to school 5 days of the week. On Monday, Wednesday and Friday they walk home, eat a snack and then walk to the park to play. The park is 5 blocks from home. They walk home again in time for dinner. How many blocks do they walk each week?
